The GMS University Consortium is derived from SEAMEO RIHED’s objective is to build regional platforms and collaboration mechanisms that foster HEIs to share experience and link academic resources to improve the quality and excellence of universities in GMS region.

Expected outputs of GMS University Consortium has been an evidence through the Kick-off Meeting with an assembling of 22 member universities on agreed upon of the main outputs initiation stage (2015-2017) in Signing of Joint Declaration and witnessed by Asian Development Bank (ADB), SEAMEO RIHED and the Ministry of Education and Sports, Lao PDR, on 8 July 2015 in Vientaine, Lao’s People Democratic Republic.

Member universities of the GMS-UC will be nominated by respective government and join the project on a voluntary basis. To mark the formal establishment of the Consortium, a joint Declaration addressing the collaboration aspects of working mechanisms is expected to be discussed, agreed upon and signed by the participating universities. The collaboration includes university governance, quality assurance (learning from ASEAN University Network (AUN) in university networking and institutional QA development), talents cultivation, research collaboration, university social responsibility and information sharing.

Expected outcomes after 2017, The GMS-UC collective efforts will help member in forging, strengthening and accelerating cross border collaboration in GMS countries will be built.
Government Roles in GMS-UC and the Development of ACTFA

SEAMEO RIHED plays a crucial role in the regional harmonization process and capacity building of SEAMEO member countries in the field of higher education, responding to a variety of needs and activities and programs designed to support the policy, planning, administration and management of higher education and remaining a dynamic, strategic and internationally recognized centre for the promotion of understanding, collaboration and synergy in higher education for regional development.

An Original Concept of ACTFA

As proposed by SEAMEO-RIHED in 2013:

1. Mutual Recognition: Develop departmental level student exchanges for professional education
2. Credit Transfer: Use the concept of ACTFA-CTS for credit transfer
3. Grade Transfer: Most difficult issue, but will be solved soon in the future
4. Supporting Mechanisms & System Context: Must establish an “International Office” at each university for student mobility and also improve transparency of educational activities (information package)

GMS-UC and ACTFA will benefit national higher education development, and its implication to regional higher education harmonization.

Benefit to join the ACTFA of National Higher Education

1. (For students) Give freedom for student mobility and improve their employability.
2. (For Universities) Enrich internationalized education and campus with international students.
3. (For companies) Provide internationalized workers.
4. (For economy) Develop globally competitive regional economy.
5. (For region) Realize sustainable regional peace by mutually trusted people.

(Taiji Hotta, Hiroshima University)

Three ACTFA-CTS Documents

1. Exchange of ACTFA Information Package
2. Exchange of ACTFA Study Plan
3. Exchange of the ACTFA Transcript
Chiang Rai Rajabhat University’s ACTFA Information Package

1. A general profile of university

(1) Location of university

Chiang Rai Rajabhat University’s main site contains most of its facilities and it often referred to as campus, however Chiang Rai Rajabhat University is not a campus university as the concept is commonly understood. It is centrally located in the new urbanized area of Chiangrai city and it is away 4 kilometers towards up north from Mae Fah Luang Chiangrai Internal Airport.

The campus occupies an area of 1,530 rais (approximately 255 hectares) and its buildings are integrated with surrounding shaded trees bearing flowers wild fragrant all year round and, especially known as “Ka Slong Kham” a university emblem flower, shape roughly like jasmine with single petal. The most beautiful vicinity part of the Princess Mother Somdet Phra Srinagarindra Park, Chiang Rai which had been constructed to commemorate upon Her Royal kindness bestowed to the people of Chiangrai, the garden is facing Nong Bua reservoir to the west which on the top of the courtyard where the viewer could watch the sunset scenery dropping behind the mountain ridge. Students and Chiangrai people and tourists can leisurely take a walk or taking physical exercise around the garden.

The main highway Pahonyotin starts from Bangkok at the kilometer stone one Victory Monument to Chiangrai to the northern part about 900 kilometers passing various provinces; Ayudhaya, Singburi, Angthong, Chainart, Nakhon Sawan, Pichit, Pisanulok, Uttraradit, Phrae, Phayao and Chiangrai. Chiangrai is the most upper northern part of Thailand where people can commute crossing the borders of three countries to Myanmar through Mae Sai – Tachilek, to Lao People’s Democratic Republic through border area of Chiang Khong – Huayxay and further to Luang Namtha of Lao PDR, that will be connected to the border of the southern part of People’s Republic of China; Xichuanbanna and Kunming. Chiangrai is a very important geographical strategy area for trade and investment and also educational center. The attractiveness of Chiangrai to be the center of education is the cool climate, mountainous surrounding, and connecting to the neighboring countries of the Greater Mekong Sub-region. Chiangrai Rajabhat University is one part to enhance Chiangrai to become the well known Center of the Education in the region both of the Greater Mekong Region and the ASEAN Community.
Brief history of the university

Chiang Rai Rajabhat University is one of the Government owned teaching, research, and social services institutions. The University is striving for excellence through the creation, preservation, transfer and application of knowledge. Chiang Rai Rajabhat University traces its root of the formation for an establishment of certificate level teacher training college in September 11, 1968 and was set up in accordance with the cabinet approval to be Chiang Rai Teacher College on September 29, 1973. His Majesty the King bestowed a new official name to Chiang Rai Rajabhat Teacher College as the Rajabhat Institute to enhance the diversity of graduates. Under the Royal Decree has enacted Chiang Rai Rajabhat Institute on 15 June 2004 to a new upgrading status as Chiang Rai Rajabhat University. New era of Chiang Rai Rajabhat University will go forward after having achieved successful teaching and learning during the past 42 years. Chiang Rai Rajabhat University will enhance excellent in teaching and learning and pursuing to the good quality of research that is relevant to the world perspectives and appropriate to solving for betterment of the Greater Mekong Region and ASEAN Community.

At present, there are 14 academic faculties, namely (1) Faculty of Education (2) Faculty of Science and Technology (3) Faculty of Management Sciences (4) Faculty of Industrial Technology (5) Faculty of Humanities (6) School of Social Sciences (7) School of Traditional and Alternative Medicine (8) International College of Mekong Region (9) School of Computer and Information Technology (10) School of Tourism (11) School of Accounting (12) School of Health Science (13) School of Public Administration (14) School of Law.

The supportive services for educational function is divided into 8 units, namely, (1) Office of the President (2) Office of Academic Promotion and Registration (3) Office of Academic Service and Information Technology (4) Art and Culture Center (5) Research and Development Institute (6) Office of Social Services for Society (7) Office of Continuing Education and Training (8) Demonstration School of Chiang Rai Rajabhat University. Moreover, the University has established various projects for working closely with local people for improvement of the well being and peaceful communities.

The University has formulated 9 Strategic Plan for implementation to meet the key objectives as follows:
1. Development of the University towards the University of Locality.
2. Facilitation of excellent in teaching and learning
3. Development of students’ activities in a wider perspective.
4. Facilitate and support in the research and innovative projects.
5. Contribution of academic services to the society.
7. Facilitate efficient administrative and management systems.
8. Development financial and budgeting systems.
9. Educational Quality Assurance
Chiang Rai Rajabhat University its vision and strategic plan to embrace and advocate:

- The idea of a university to produce and nurture scholars for the community.
- The practice of highest standards of ethics in conducting research, teaching, administration and organizational policy and behavior.
- The equitable access to the knowledge base data and learning facilities to all students irrespective of their backgrounds.

The Symbol of Chiang Rai Rajabhat University

The symbol of the University explicitly reflects on the duty of His Majesty the King in restructuring the Kingdoms educational pattern of conduct that developed from learning at home, temple, the royal palace, to school. The emphasis was made on the establishment of the first teacher education school where the scheme of intellectuality towards solution on developing the country was implemented. For this reason, alphabets are the key element of design. The capital letter in the University’s symbol therefore, is similar to international system, which is the Roman Gothic style of letter or Old English letter. In addition, the Khmer alphabets symbolize the development of the alphabet and also represent a temporary communication as well as praising the dignity of the Royalty.
(3) Size and organization of the university

Chiang Rai Rajabhat University

Academic Council

Committee for Promotion of University Activity

Committee of Approving Academic Position

Committee for Follow-up Monitoring and Evaluation

Chiang Rai Rajabhat University

Committee for Internal Audit

Faculty and Government Officials Council

Educational Management Unit

Educational Support Unit

- Office of the President
- Office of Academic Promotion and Registration
- Office of Academic Service and Information Technology
- Art and Culture Center
- Research and Development Institute
- Office of Social Services for Society
- Office of Continuing Education and Training
- Demonstration School of Chiang Rai Rajabhat University

- Faculty of Education
- Faculty of Science and Technology
- Faculty of Management Sciences
- Faculty of Industrial Technology
- Faculty of Humanities
- School of Social Sciences
- School of Traditional and Alternative Medicine
- International College of Mekong Region
- School of Computer and Information Technology
- School of Tourism
- School of Accounting
- School of Health Science
- School of Public Administration
- School of Law
2. General explanation about university system

(1) Academic calendar
The academic year at Chiang Rai Rajabhat University starts in August which is divided into 3 semesters:
Semester I: August – December
Semester II: January – May
Summer: May – July

(2) Credit system
In accordance with Chiang Rai Rajabhat University regulations and procedures for undergraduate studies B.E. 2558 (year 2015), Chiang Rai Rajabhat University is actively supporting Credit Transfer, Course Transfer and Cross University Registration.

(3) Grading system
Chiang Rai Rajabhat University has divided the courses evaluation of each semester into 2 systems:

(1) Grading system with 8 score levels by assigning the emblem of score level in the following:

<table>
<thead>
<tr>
<th>Emblem of score level</th>
<th>Meaning of learning achievement</th>
<th>Score level</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4.0</td>
</tr>
<tr>
<td>B+</td>
<td>Very Good</td>
<td>3.5</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3.0</td>
</tr>
<tr>
<td>C+</td>
<td>Fairly Good</td>
<td>2.5</td>
</tr>
<tr>
<td>C</td>
<td>Fair</td>
<td>2.0</td>
</tr>
<tr>
<td>D+</td>
<td>Poor</td>
<td>1.5</td>
</tr>
<tr>
<td>D</td>
<td>Very Poor</td>
<td>1.0</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>0.0</td>
</tr>
</tbody>
</table>

(2) Grading system with non-score level but assign the emblem in the following:

<table>
<thead>
<tr>
<th>PD</th>
<th>Pass with Distinction</th>
</tr>
</thead>
<tbody>
<tr>
<td>S</td>
<td>Satisfactory</td>
</tr>
<tr>
<td>U</td>
<td>Unsatisfactory</td>
</tr>
</tbody>
</table>

3. An overall description of the international program/course/subject

(1) Purpose
Chiang Rai Rajabhat University offers an opportunity for Thai students and others from the Greater Mekong Sub-region to seek mobility to enroll in the international programs in bachelor’s, master’ and Ph.D. degree levels. Most popularly is the bachelor degree level where first batch of foreign student under the bilateral signed agreement with Yuxi Normal University, Kunming, southern part of China to study Thai language, English Studies, Hotel and Tourism. At present, many curriculum had been developed to respond to the socio-economic advancement of the country and the region such as in the field of aeronautical sciences where students were from Cambodia, Lao People’s Democratic Republic and Myanmar.

(2) Program outline
The following are the Bachelor Degree Programs offered at Chiang Rai Rajabhat University.
Bachelor of Science Program in Air Traffic Control

Air Traffic Control is the study of state-of-the-art facilities which related to the government and commercial aviation services. The teaching and learning is designed to place students directly into the career of Air Traffic Control, in particular, aircraft transfer of communication and the transferring controller. This air traffic control procedures is to prevent collisions, organize and expedite the flow of traffic, and provide information and other support for pilots to promote safety from the original to the terminal airports.

In addition, the curriculum has focused on enhancing knowledge and skill that the students will be familiar with devices in Flight Data Processing, Automatic Terminal Information Service, as well as Radar Simulator with Automatic Switching Message System. This requirement has been in accordance with the rules and regulations of the International Civil Aviation Organization.

Qualification of the Applicants for Admission Requirement

1. The applicants should accomplish the senior secondary education or equivalent in Science-Mathematics, Arts-Mathematics or Language-Arts Programs.
2. In case, the applicants had attained intermediate bachelor degree level or equivalent, the decision will be made according to the curriculum requirement.

Curriculum Structure

<table>
<thead>
<tr>
<th>Total number of 143 credits</th>
</tr>
</thead>
</table>

Major reinforcement courses

- Introduction to Aviation
- Introduction to Air Traffic Control
- Physics for Aerospace Sciences
- Air Law and Regulations
- Introduction to Aerodrome Operations
- Flight Physiology
- Aviation Safety
- Air Traffic Control Tower Operations
- ATC Approach Control Operations
- General Aviation Operations and Management
- Surveillance Systems in Air Traffic Control
- ATC Area Control Operations
- Air Traffic Service Planning
- Aircraft Navigational System and Protection Systems
- Air Traffic Flow Management System
- Air Traffic Control Surveillance and Non-Surveillance Procedures
- Seminar on Managing Airport in International Perspective
- ATC Communication Systems
- Aircraft Systems

Professionals/Career Opportunities after Graduation

1. Flight Data Controller
2. Air Traffic Controller
3. Ground Controller and Tower Controller or Local Controller
4. Various positions in the aviation industry with airlines companies
5. Information and Air Traffic Service Officer for Oil Platform Offshore

The Applicants Selection

1. Selection of the applicant is in accordance with Chiang Rai Rajabhat University regulations and procedures for undergraduate studies B.E. 2556.
2. The applicants must pass the physical and visual examination by a physician who is designated as an Aviation Medical Examiner.
Study Plan

Four years bachelor degree program in accordance with Thailand Qualifications Framework for Higher Education (TQF) 2013

Medium of Instruction / Language

English

Conditions of the Curriculum

Prior to attain the degree requirement, the students have to take the exit examination by passing Aviation English Language Proficiency (ICAO English Proficiency Standard at Operation Level 4) or TOEIC not less than 650.

Tuition Fees

Tuition fees on full time enrolment of a four year degree cost 467,200 Baht or with average 121,800 Baht per year.

Admissions

To apply for admission can be sought for 2 channels;

(1) Online Website: http://admission.cru.ac.th
(2) Admission Unit, Chiang Rai Rajabhat University,
Duration of admission from October to June of each academic year.
Bachelor of Science Program in Airport Management

Airports are an essential part of the air transport system, providing the entire infrastructure needed to enable passengers and freight to transfer to surface modes of transport or to allow aircraft to take off and land with safety. Airports bring together a wide range of facilities and services including air traffic control, security, freight terminals, and ground transport interchanges, in accordance with the requirements of International Civil Aviation Organization.

The Air Port Management curriculum is offered to the students whose career objectives are aimed toward the management and operation of the flight-related activities of the aviation industry. Emphasis is placed on the ground activities, airport management, general aviation management profession, or corporate aviation management.

Qualification of the Applicants for Admission Requirement

1. The applicants should accomplish the senior secondary education or equivalent in Science-Mathematics, Arts-Mathematics or Language-Arts Programs.

2. In case, the applicants had attained intermediate bachelor degree level or equivalent, the decision will be made according to the curriculum requirement.

Curriculum Structure

- Total number of 143 credits

Major reinforcement courses
- Introduction to Aviation
- Introduction to Air Traffic Control
- Air Law and Regulations
- Introduction to Aerodrome Operations
- Aircraft Systems
- Seminar on Managing Airport in International Perspective
- Airport System and Planning
- Airport Planning and Administration
- Airport Design and Construction
- Airport Operation and Support Facilities
- Airport Ramp Operations
- Airport Maintenance
- Aircraft Inspection and Maintenance
- Air Transportation and Airline Analysis
- Aviation Safety and Airport Security
- Airport Quality Management Service
- Passenger Services Performance Appraisal
- Air Transportation

Professionals/Career Opportunities after Graduation

1. Airport Service Officer
2. Flight Information Officer
3. Safety and Security Officer
4. Flight Protocol Officer
5. Airport Administrator
6. Flight-related Activities with Airlines Company

The Applicants Selection

1. Selection of the applicant is in accordance with Chiang Rai Rajabhat University regulations and procedures for undergraduate studies B.E. 2558.

2. The applicants must pass the physical and visual examination by a physician who is designated as an Aviation Medical Examiner.
Study Plan

Four years bachelor degree program in accordance with Thailand Qualifications Framework for Higher Education (TQF) 2013

Medium of Instruction / Language
English

Conditions of the Curriculum

Prior to attain the degree requirement, the students have to take the exit examination by passing TOEIC not less than 650.

Tuition Fees

Tuition fees on full time enrollment of a four year degree cost 487,200 Baht or with average 121,800 Baht per year.

Admissions

To apply for admission can be sought for 2 channels;
(1) Online Website: http://admission.cru.ac.th
(2) Admission Unit, Chiang Rai Rajabhat University,
Duration of admission from October to June of each academic year.
Bachelor of Science Program in Air Cargo Management

Air Cargo is one of the scientific operations for the movement of commodities shipped by air to all over the world with restricted measures on tariff and rules, acceptance of goods, calculation of charges, and cargo claims.

Bachelor of Science Program in Air Cargo Management is designed for students to gain knowledge and practical skills on air freight management both domestic and the globalization of the world economy. Students can apply the air cargo logistics system with other business of the aviation industry.

Qualification of the Applicants for Admission Requirement

1. The applicants should accomplish the senior secondary education or equivalent in Science-Mathematics, Arts-Mathematics or Language-Arts Programs.

2. In case, the applicants had attained the intermediate bachelor degree level or equivalent, the decision will be made according to the curriculum requirement.

Curriculum Structure

Total number of 143 credits

Major reinforcement courses

- Introduction to Aviation
- Introduction to Aerodrome Operations
- Aircraft Systems
- Seminar on Managing Airport in International Perspective
- Aviation Business Law
- Airport Ramp Operations
- Aviation Safety and Airport Security
- Air Transportation
- Role of Air Cargo Service
- Airport Cargo Terminal Management and Facilitation
- Computerized Warehouse Management System
- Principles of Logistics and Global Logistics
- Air Cargo Logistics and Supply Chain Management
- Cargo Handling Systems and Airport Logistics
- Air Cargo Operating Cost and Revenue Management
- Air Cargo Booking Acceptance and Documentation for Freight Forwarding
- Air Cargo Loading and Forecasting Trends
- Air Cargo Export and Import
- Air Cargo Operations Evaluation and Analysis

Professionals/Career Opportunities after Graduation

1. Air Cargo Officer
2. Air Cargo Warehouse Manager
3. International Export and Import Officer
4. Air Cargo Technical Officer
5. Air Cargo Service and Operation Manager
6. Standard Commodity Quality Control Manager
7. Aviation Business Personnel with the Airlines Company

The Applicants Selection

1. Selection of the applicant is in accordance with Chiang Rai Rajabhat University regulations and procedures for undergraduate studies B.E. 2558.

2. The applicants must pass the physical and visual examination by a physician who is designated as an Aviation Medical Examiner.
Study Plan

Bachelor of Science Program in Commercial Pilot License (International Program)

Commercial Pilot License covers a broad range of subjects across the areas of science, technology and professional practice, it is related to various types of aviation both commercial and governmental operations as well. Teaching and learning places important approach in providing a foundation knowledge and skills required in practices both single and multi-engine aeroplanes as well as with a combination of advanced technology in order to allow a prospective pilot to achieve a Commercial Pilot License and a degree customized for the pilot profession, which in line with International Civil Aviation Organization (ICAO) consideration.

Qualification of the Applicants for Admission Requirement

1. The applicant should complete the senior secondary education or equivalent in Science - Mathematics, Arts - Mathematics or Language - Arts Programs.

2. In case the applicant had attained intermediate bachelor degree level or equivalent, the decision will be made according to the curriculum requirement.

Curriculum Structure

- Total number of 168 credits

Major reinforcement courses
- Introduction to Aviation
- Introduction to Air Traffic Control
- Physics for Aerospace Sciences
- Air Law and Regulations
- Flight Physiology
- Aircraft Systems
- Flight Safety
- Flight Simulation Training Device (FSTD Type I)
- Basic Altitude Instrument Flying
- VFR and IFR Regulations and Procedures
- Aerodynamics - Airplanes
- Single Engine Systems and Procedures
- Multi-Engine Systems and Procedures
- Basic Navigation
- Safety Management System
- Advanced Aerodynamics
- Gas Turbine Engines
- Flight Procedures of One Engine Airplane
- Crew Resource Management
- Advanced Navigation (PBN System)
- Flight Theory of Two Engine Airplane
- Advanced Aircraft Operations
- Aviation Senior Capstone
- Flight Simulation Training Device (FSTD Type II)

All subsequent flight training required as part of a student's course of study, must be completed in residence at Chiang Rai Rajabhat University. Flight training as a pilot for dual flight instruction and solo practice is required not less than 150 hours flying time necessary to obtain a Commercial Pilot License. The fourth year student from Chiang Rai Rajabhat University is required to spend one year to complete flight training under a specific academic cooperation program on Aviation Personnel Development with the International Aviation College, Nakhon Phanom University. Once the student has completed satisfactorily required flight lessons will be entitled to apply for Commercial Pilot License with Multi-engine and Instrument Ratings from the Department of Civil Aviation – Thailand.

Professionals/Career Opportunities after Graduation

1. Commercial Pilot License
2. Pilots career’ as related to air carriers with military, agricultural, tourism industry, traffic investigation in natural environment, forest and coastal line operations.
3. Pilots flying civil aircrafts with airlines companies.

The Applicants Selection

1. Selection of the applicant is in accordance with Chiang Rai Rajabhat University regulations and procedures for undergraduate studies BE. 2558.
2. The applicants must pass the physical examination and aviation psychology by a physician who is designated as an Aviation Medical Examiner and the student should consider obtaining a Class I medical certificate.
3. The applicant must pass an interview in English by The Advisory Board of International College of Mekong Region.
Study Plan

Four years bachelor degree program in accordance with Thailand Qualifications Framework for Higher Education (TQF) 2013

Medium of Instruction / Language

English

Conditions of the Curriculum

Prior to attain the degree requirement, the students have to tok the exit examination by passing Aviation English Language Proficiency (ICAO English Proficiency Standard at Operation Level 4) or TOEIC not less than 650, and, successful obtaining Commercial Pilot License with Multi-engine and Instrument Ratings Certificate from the Department of Civil Aviation - Thailand, with the approval for attainment of the Bachelor of Science Degree in Commercial Pilot License.

Tuition Fees

Tuition fees on full time enrollment of a four year degree cost 2,600,000 Baht or with average 70,000 Baht per year.

Admissions

To apply for admission can be sought for 2 channels:

(1) Online Website: http://admission.oru.ac.th

(2) Admission Unit, Chiang Rai Rajabhat University, at official hour. Duration of admission begins from October to June of each academic year.
4. Student Life and Facilities

(1) How to come to campus

There are many ways to travel to Chiangrai province, where the students from neighboring countries can commute by (1) airplane with preference of 13 low cost airlines to Chiangrai Mae Fah Luang International Airport or, (2) Buses which operating international route between Thailand and Lao PDR, Xichuan Banna, Kunming, southern People’s Republic of China, (3) trains between southern Thailand to Chiangmai or via Bangkok to Chiangmai and transfer by city bus passing scenery of green mountain and valley along the high way taking about 4 hours to reach destination of Chiangrai province.

(2) Schedule of orientation

Before the first semester begins, the first year students are required to attend the orientation session which the following are covered:

1. To be familiar with the campus life, academic major focus, advisory system, libraries, Student’s Union, and procedure to register in class through computerized system.
2. Mostly, the students will be provided to participate in a preparatory course such as English or Thai language for some foreign students.

(3) Student’s accommodation

Chiang Rai Rajabhat University has provided dormitory for Thai and foreign students to stay on campus. Students can be allowed to stay outside campus within the vicinity of University Dormitory networks through compulsory regulation for safety and security. The students both stay on campus and vicinity areas can be accessed to shops, mini restaurants, convenience stores or can commute a short distance to town for shopping at the department stores.

The campus has a number of cafeterias, where students can eat fairly cheap meals.

Chiang Rai Rajabhat University has well equipped with Complex Sport where students can play football, tennis, badminton, Pe-tong, basket ball, table tennis, jogging around the football field in the evening or driving golf at the University court yard. Also, there is a large gymnasium which is used for a variety of indoor sports.
Student from each faculty can organize a Student Club to perform such as cultural activities—traditional northern dance, Loy Krathong Festival, Song Kran Festival, and other activities such as “Welcome Freshmen”, “Good – Bye Senior”, as well as Christmas and New Year.

4. Admission Information
   (1) Admission procedure and time line
       To apply for admission can be sought for two channels:
       1. Online Website: http://admission.crru.ac.th
       2. Admission Unit, Chiang Rai Rajabhat University.

   (2) Application deadlines duration of admission begins from October to June of each academic year.

   (3) Visa application
       Once the student has been accepted through verified documents requirement from the Admission Unit, the Foreign Relation Unit will send the acceptance letter for admission to the student where the student can use the document addressed to the Thai embassy in the respective country for applying visa.
